I lumen sorgente sono misurati appena la luce esce dal diodo di emissione.  
I lumen output sono misurati fuori dalla lampada considerando così le dispersioni causate dalle ottiche, dagli schermi e le riflessioni.

Source lumen are measured as light exits the emitting diode.  
Output lumen are measured outside the lamp thus considering the dispersions caused by optics, screens and reflections.

## Nuova etichetta energetica / New energy label

Dal 1° settembre 2021 entra in vigore la nuova etichetta energetica riscalata per rendere più chiaro al consumatore quali sono i prodotti più efficienti sul mercato.

La nuova scala di valori (da A a G) è diversa da quella precedente e, a parità di classe energetica, sono richieste prestazioni molto più elevate.

Non esistono più, ad esempio, le classi A+ e A++ e i relativi prodotti sono stati riclassificati in classi più basse, mentre la nuova classe A (210 lm/w) richiede un'efficienza quasi doppia rispetto alla precedente classe A++ (120 lm/w).

Una novità di sicuro interesse è l'aggiunta di un QR Code che consentirà agli utenti di accedere alle informazioni della sorgente luminosa registrate sul database EPREL (European Product Registry for Energy Labelling) mediante il sito Web di pubblico accesso per comparare e consultare specifiche tecniche del prodotto.

CLASS	lm / W
A++	120
A+	75
A	55
B	22
C	16
D	13
E	<13

CLASS	lm / W
A	210
B	185
C	160
D	135
E	110
F	85
G	<85

From 1<sup>st</sup> September 2021 the new rescaled energy label comes into force to make the product efficiency concept into consumer mind clearer.

The new scale of values (from A to G) is different from the previous ones and with the same energy class, much higher performance is required.

For example, classes A+ and A++ no longer exist and the related products have been reclassified into lower classes, while the new class A (210 lm/w) requires almost double efficiency compared to the previous class A++ (120 lm/w).

An innovation of great interest is the addition of a QR Code that will allow users to access light source information registered on the EPREL database (European Product Registry for Energy Labelling) through a new public access website to compare and refer technical specifications of the product.

## Nuova etichetta ambientale / New environment label

Essere sostenibili è una virtù naturale, proteggere l'ambiente è un impegno concreto che da sempre prendiamo a cuore.

Per ridurre i consumi puntiamo su prodotti innovativi, dalla forte connotazione green, frutto di oculate strategie aziendali. Il nostro obiettivo è il raggiungimento della piena autosufficienza energetica attraverso l'utilizzo di fonti rinnovabili e tecnologie all'avanguardia.

Rispettare l'ambiente significa poter guardare al presente e al futuro con altri occhi.

Per questo abbiamo introdotto, su tutti i nostri packaging, un'etichetta che fornisce informazioni sia sulla composizione degli imballaggi, sia sul loro corretto smaltimento da parte del consumatore.

Being sustainable is a natural virtue, protecting the environment is a concrete commitment that we have always taken to heart.

To reduce consumption, we focus innovative products, with a strong green connotation, the result of accurate company strategies. Our goal is to achieve full energy self-sufficiency through the use of renewable sources and cutting-edge technologies.

Respecting the environment means being able to look at the present and the future with different eyes.

For this reason we have introduced, on all our packaging, a label that provides information both on the composition of the packaging and on its correct disposal by the consumer.

All defective products can be returned after our permission only. Naturally it is necessary a first evaluation or check, then instructions from our Company to make the return will follow. It should be noted that the term "defective" means any product that has not been used and has obvious manufacturing and/or operating anomalies.

Broken glass lamps do not fall within the field of defectiveness. Other products can be returned by our permission only, freight prepaid, as communicated by the claim's office at the time of the request.
